

# Patient Financing

As a service to our patients, we are pleased to offer two different programs for patient financing. One is **CareCredit** and the other is **Dental Fee Plan by Capital One**. We will provide information on both and encourage you to choose whichever plan suits your needs best. Many of our patients utilize these options while waiting for reimbursement from insurance and/or flex spending!

## CareCredit®

### Payment Plan Choices

CareCredit offers multiple payment plans to allow you to select the plan that best meets your needs:

#### No Interest Payment Plans

3, 6, & 12 months **No Interest** Payment Plans

No interest if the balance is paid within the specified time period

Low monthly payments

#### Extended Payment Plans

24, 36, 48, & 60 month plan options

For treatment fees from \$1,000 to over \$25,000

11.90% interest rate

Payments as low as \$25 on a \$1,000 treatment fee

It only takes a few minutes to apply for CareCredit and you may receive an online decision in seconds! [Apply now](#) or ask a team member for more details.

# dental fee plan™

Capital One® Healthcare Finance<sup>sm</sup> makes elective dental procedures affordable for any budget. Use Capital One Healthcare Finance to pay for elective procedures, from \$300 to \$25,000.

We offer installment loans with low, fixed rates from 1.99% APR to 23.99% APR\*, or interest-free loans\*\* for 3, 6, or 12, months to qualified applicants. Either way, you'll be able to find an option designed to fit within your budget.

Combine the cost of treatment among multiple specialists (e.g., cosmetic dentist, oral surgeon, and endodontist) in one loan with one affordable monthly payment. Our program delivers other advantages like better terms than most credit cards.

\*Rates for our program range from 1.99% APR to 23.99% APR. The APR available to you will be determined by the term for which you apply and your credit standing. These rates are available for a limited time only and are not available in all areas.

\*\*Interest-free options not currently available in all areas. Please note that a 19.99% retroactive APR will be applied to the balance of your loan if not paid in full by the end of the interest-free period. To calculate the finance charges, we will multiply your daily principal balance during the interest-free period by your interest rate of 19.99% APR. We will then add this interest charge to the balance of your loan. Please note that our 3-month interest-free loan is a 24-month fixed rate loan with a 3-month interest-free period. Similarly, all other interest-free loans are 48 month fixed rate loans with stated interest-free periods.
